Company's Focus

INFRASTRUCTURE

We have established a technologically advanced infrastructure facility, which is equipped with latest machines. Our infrastructure facility includes high end processing plant, R & D UNIT, QUALITY TESTING UNIT, huge warehousing unit and effective packaging unit. Our state-of-the-art processing facility assists us in completing the bulk orders within the stipulated time period. Spread over a sprawling area, our unit is installed with all the requisite machines to help in the processing process.

QUALITY ASSURANCE

As a quality driven organization we always strive to offer a high grade qualitative range to our valued clients that are spread across the world. Quality is of supreme importance to us and is maintained by using excellent raw material that is procured from well known vendors of the industry. We always try to maintain strict quality parameters to satisfy our valued clients. We have appointed a team of experienced and devoted quality controllers who check each and every stage of production right from the procurement of raw material.
